

Determinar el número de piezas fraccionarias más pequeñas que se pueden hacer a partir de la pieza más grande.

Respuestas

Ej) $1 \frac{2}{5}$

Ej. 7

1) $1 \frac{1}{2}$

1. _____

2) $6 \frac{1}{4}$

2. _____

3) $3 \frac{1}{3}$

3. _____

4) $6 \frac{1}{4}$

4. _____

5) $3 \frac{2}{4}$

5. _____

6) $8 \frac{2}{4}$

6. _____

7) $9 \frac{2}{4}$

7. _____

8) $9 \frac{2}{3}$

8. _____

9) $8 \frac{2}{3}$

9. _____

10) $8 \frac{3}{4}$

10. _____

Determinar el número de piezas fraccionarias más pequeñas que se pueden hacer a partir de la pieza más grande.
